Projects

Food Selling Web Application

Ejs, CSS, Node.js, Express.js, MongoDB (Mongoose), bootstrap

Developed a dynamic web application that allows users to browse, order, and manage food items online. Implemented user authentication and session management using Express and MongoDB.
Designed responsive UI with HTML and CSS for seamless user experience across devices.
Integrated MongoDB (via Mongoose) for storing user orders, menu items, and user data.
Handled routing and server-side logic with Express.js and Node.js.

StayEase-Property Rental Web App

Ejs, Node.js, Express.js, MongoDB, bootstrap

Created a full-stack property rental platform enabling users to list, search, and book accommodations. Designed and developed user-facing pages: home, property listings, booking, login/signup, host dashboard.
Implemented secure user authentication and RESTful APIs for listings and user data.
Developed booking flow with form validation, date selection, and database integration.
