

PRADEEP NIGAM

Full Stack Developer — MERN Stack Developer

Bhopal, Madhya Pradesh | +91 8305729451 | pradeepnigam9452@gmail.com

Portfolio | GitHub | LinkedIn | LeetCode

SUMMARY

Full Stack Developer with hands-on experience building MERN and Next.js applications, REST APIs, authentication systems, and MongoDB-based applications. Experienced in team-based development, API integration, debugging, testing, and developing admin modules for real-world business workflows. Strong foundation in JavaScript, Java, Python, Data Structures and Algorithms, and backend development.

EDUCATION

IES Institute of Technology and Management

B.Tech in Computer Science and Engineering – GPA: 8.4/10

Bhopal, Madhya Pradesh

2022 – 2026

EXPERIENCE

Binarylogix Technology LLP

Full Stack Developer Intern

Bhopal, Madhya Pradesh

Apr 2026 – Aug 2026

- Develop and maintain full-stack web applications using React.js, Node.js, Express.js, MongoDB, and Next.js in a team-based development environment.
- Collaborate with team members to implement features, integrate code, debug issues, test modules, and improve application functionality and reliability.
- Build and integrate REST APIs using Node.js and Express.js with MongoDB/Mongoose, implementing authentication, validation, middleware, and role-based access control.

Upstare Research

Frontend Developer Intern

Bhopal, Madhya Pradesh

Dec 2025 – Apr 2026

- Integrated REST APIs with frontend components and handled application data, loading states, error handling, and user interactions.
- Debugged frontend issues and improved application performance, usability, responsiveness, and overall user experience.

PROJECTS

GoCart | Next.js, MongoDB, Node.js

Live

- Built a full-stack e-commerce application using Next.js, MongoDB, and REST APIs with responsive product browsing and user workflows.
- Implemented reusable React components, dynamic pages, API integration, and MongoDB-based data management for the application.

WishMaker | React.js, Node.js, Express.js, MongoDB

Live

- Developed a personalized web platform that allows users to create and share custom pages for occasions such as birthdays and celebrations.
- Implemented reusable page components, dynamic content handling, responsive UI, and backend integration for managing user-created content.

Property Finder | Node.js, Express.js, MongoDB, EJS, Bootstrap

Live

- Developed a property listing platform using Node.js, Express.js, MongoDB, EJS, and Bootstrap with responsive interfaces.
- Implemented property listing, search, data management, and MongoDB integration for managing property information and user workflows.

TECHNICAL SKILLS

Languages: JavaScript, Java, Python

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, React Router, Axios, HTML5, CSS3

Backend: Node.js, Express.js, FastAPI, REST APIs, JWT, bcrypt, Middleware, MVC

Database: MongoDB, Mongoose, MySQL

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Authentication, RBAC

Tools: Git, GitHub, Postman, VS Code, Vercel, Render, npm
